

Data Flow Diagram

Date	29 September 2026
Team ID	SWTID-2026-7995
Project Name	LegalEase AI
Maximum Marks	2 Marks

Data Flow Diagram

The diagram shows how data moves through LegalEase AI between the user, application processes, AI service, and generated document output.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	A person or system outside the project that sends or receives data.
Rectangle with numbered header	Process	An activity that transforms incoming data into outgoing data.
Rectangle (solid fill, no number)	Data Store	A place where data is held for later use.
Labeled arrow	Data Flow	Movement of data between entities and processes, labelled with the data passed.

LegalEase AI – Data Flow

USER External Entity	→ Document type + details / terms	1. Streamlit Frontend Collect input and display result	→ User request	2. FastAPI Backend Process request and call AI service
				↓ Prompt + user details
		3. Gemini Generate legal document content	← Generated content	
		4. Generated Document Result returned for review/editing	→ Final document	5. Export TXT / DOCX / PDF

Data Flow Summary: The user enters the document type and required details in the Streamlit interface. The request is sent to the FastAPI backend, which uses Gemini to generate the document. The generated result is returned to the interface for review/editing and can then be exported as TXT, DOCX, or PDF.
